Potentials

Possibilities

Probabilities

PASSAGEWAYS

“The passageways to All of Creation are opened by connection to the fourth element - gnost/knowingness - and exploring the caverns of your being-ness. Not by talking about it, but exploring it from within yourself. There’s nothing ‘out there’. The passageways are opened up when you place your full awareness on the Totality of your Being.

Perceptions distort realities. Awareness expands Reality.”

~ Magus Kuthumi

Five Potentials for the New Energy Human

Based on the Free Sarah Series: Five to Further

1. The New Mind can comprehend the infinite.

The New Energy Human no longer needs to go beyond the mind. When you connect to the Fourth Element (gnost or knowingness), a New Mind is created that functions through pure awareness rather than distorted perceptions. It is cohesive in the New Biology.

2. The human personality or i-identity folds into the Divine Blueprint of your Inimitable Consciousness - the uniqueness, the grandness, the sovereignty of the I Am.

3. Beyond all consensus realities, lies a field of Absoluteness.

The New Human both observes and acts from this complete awareness — from a totality of being & from Big R-reality, rather than small r-reality.

4. The New Energy Human no longer needs to create dualistic experiences to wisdomize later in a linear time construct.

Beyond karma - cause and effect - beyond causal time of this happened and that is why, wisdom becomes instant. Creational intelligence occurs solely in simultaneity.

5. The New Energy Human walks into a dark room without needing to turn on a light.

"The Magus fully comprehends with all facets of Self that there are no edges or walls to anything. Never have been and never will be. And, not only do they accept it, the Magus thrives in it." ~ Sarah
