

Rhythm of Further January 2023

Your Personal Self-Inquiry Journal for January

#1: Observe without separation, what occurs in your nervous system over the next month and make a few notes.

What do we mean by observe without separation?

What role does the real illusion of space play in Self-Inquiry?

Personal Example: I went out to dinner with some friends, and I watched how my nervous system changed. I observed without disconnection from the experience or myself as the human in biological form.

In other words, actor and observer stayed as one.

I did not disassociate the observer eyes from the arms of the actor.

I did not remove my consciousness from the actor, in order to view myself in a situational experience.

I was able to FEEL the changes in my nervous system from within it, instead of hovering above it or separating my consciousness from the energy of the human experience it to examine the shift.

A shift from bringing experience to wisdom *into* gnost or the fourth element, which occurs in the moment and without having to disconnect from the moment (time) to gain perspective(s).

Actor and observer as one, felt directly how the nervous system – including the brain – shifted from an omni-awareness – which is the natural state of being – to activation of the sympathetic nervous system, which created an image of being an actor on a screen with other actors in a relative reality.

There's no right or wrong here. Good or bad. Simply watching, without disengaging from the actor or human expression.

The Self-Inquiry Experience and Expression is not about improvement of, or changing of, anything or anyone. It is not about moving perspectives.

It is simply to know yourself in a much more intimate way!!!

It is to experience absolute reality!!!

What's your experience and expression from within the experience this month?

What's the experience from within biology and the light body, simultaneously?

The spine is the wand of the magus!

This is a diagram of the nervous system, which includes the physical brain.

#2: Inquire into the Nature of the Soul 'functions' like wisdom and intuition AND the mystery of the Fourth Element.

Can you remember or recall an ancient memory an energetic imprint of this Fourth Element before it was severed in the standardized human form?

#3: What is an example of a concept or other that has come up and you realized you had always viewed it in one way on a singular trajectory (as a false Truth) and then it opened up into a New Energy view, in which energy (trajectories) flowed in all directions?

Personal Example:

I heard a whisper from eternity, the tune of Un-Sarah, that said:

Maybe. Just maybe. This will all play out in ways you cannot yet imagine.

I felt a shift in which a singular trajectory opened up to all the Ps – potentials, possibilities, probabilities, and passageways.

#4: What does the relationship between You manifest and You unmanifest feel like? How is it different from the you – You relationship? (

For more information, see last channel in the Era of the Magus series or article on the topic. Found on public articles page.

#5: Being in your Full Luminosity requires that You show up NEW in each unfolding moment(s).

What's a way, or example of, in which you showed up NEW?

Can you give an example that does not include externalities like reactions to other people or physical Earth situational experiences?

At first you may have to bypass the mind until it comes along completely. More in Magic Mind materials on the website.

#6: When you chose to explore the passageway of softness, what did you notice in the Body of Consciousness?

Did the sharp edges become exposed, magnified, or feel exposed?

How did you interact with the exposed edges?

INTRODUCTION OF TWO NEW TERMS

I want to introduce two Sanskrit terms to you. Sanskrit being the closest thing to the Atlantean vibrational language left on modern day Earth.

RAGA: The TUNE which underlies all of Creation. Ra in Atlantis meant God. The TUNE of your God (also).

Tapping into the Tune of All of Creation is how you will find and radiate JOY.

TALA: Tala means Rhythm, a rhythm that every being must find for themselves. This rhythm is how we allow LIFE to move itself through Us.

Dancing to the Rhythm of Self is how we tap into the Tune of our True Creator Nature.

Not just in a perceived inner world, but in becoming One with All Life in All of Creation.

Sovereignty is not defined by space; it is innate in Consciousness, which you have brought here to Earth in Full.
